

Kelaroo and Chemaxon

KRMS

A complete reagent management
system

Jim Moeder – Director of Software Development
www.kelaroo.com info@kelaroo.com

Who We Are...

- Founded in 2000 in San Diego
- Started with Professional Services for Biotech
- Partnered with ChemAxon

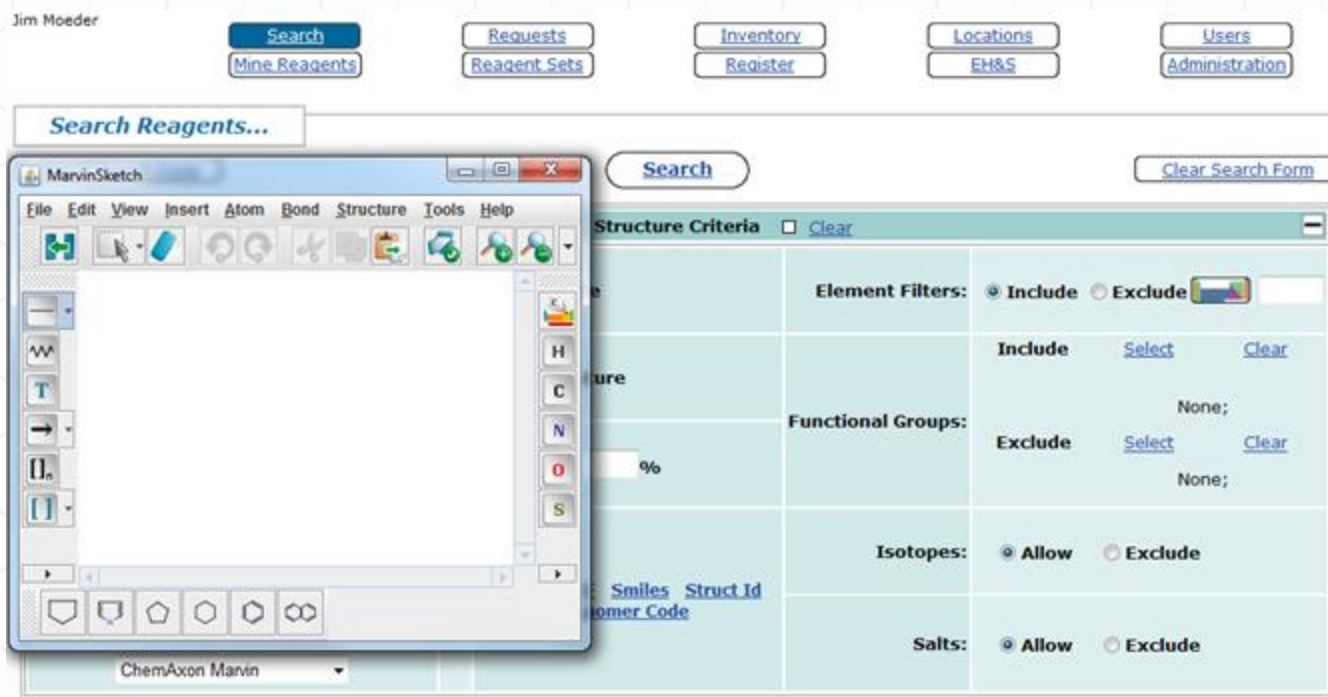

What We Do...

- Scientific Software Solutions
- Professional Services
- Cheminformatics/Bioinformatics Experts

Reagent Searching...

- Structure Searching Using Marvin via ChemAxon's JChem

The screenshot displays the Kelaroo web interface. At the top, there is a navigation bar with buttons for Search, Requests, Inventory, Locations, and Users. Below this, there are buttons for Mine Reagents, Reagent Sets, Register, EH&S, and Administration. A search form titled "Search Reagents..." is visible, with a "Search" button and a "Clear Search Form" button. A MarvinSketch window is overlaid on the search form, showing a blank canvas and a toolbar with various chemical drawing tools. The MarvinSketch window has a menu bar with File, Edit, View, Insert, Atom, Bond, Structure, Tools, and Help. The search form also has a "Structure Criteria" section with options for Element Filters, Functional Groups, Isotopes, and Salts.

Structure Criteria	Clear
Element Filters:	<input checked="" type="radio"/> Include <input type="radio"/> Exclude
Functional Groups:	Include Select Clear None; Exclude Select Clear None;
Isotopes:	<input checked="" type="radio"/> Allow <input type="radio"/> Exclude
Salts:	<input checked="" type="radio"/> Allow <input type="radio"/> Exclude

Find What You Need...

- Quickly Get the Chemicals You Have
